

ザーネクリーム (Brand name: ザーネクリームE)

Quasi-drug

ザーネクリーム

For skin roughness and inflammation

Brand Name: ザーネクリームE

- Acts directly on the stratum corneum to leave your skin moisturized.
- The active ingredients natural vitamin E and dipotassium glycyrrhizinate (an anti-inflammatory agent) condition rough skin and keep skin healthy.
- It contains lecithin (added as an emulsifier) extracted from soybeans as a moisturizing agent. This cream acts on your hands and skin, keeping them moisturized.
- Blends into the skin smoothly and without stickiness.

Indications

Skin roughness

dry skin

acne or
pimples

Prevents skin roughness, inflammation and dry skin, protects skin, prevents hot flushes after sunburn or frostbite, chilblains, cracked skin, chapping, and acne, prevents shaving rashes, moisturizes skin, conditions skin, and keeps skin healthy

Usage

Use on areas that can easily become dry, such as your hands, elbows, knees, face, or neck, at times such as after doing washing-up, after washing your face or taking a bath, before going to sleep, or after shaving.
