Removes viruses and bacteria, with an antibacterial action that lasts for 24 hours

イータック®抗菌化スプレー

Etak Antibacterial Spray

- Just by spraying a mask before you wear it, it can prevent viruses or bacteria adhering to the mask for 24 hours.
- The main ingredient, the long-lasting antibacterial **Etak** (イータック), is fixed to the sprayed location and continues to have an antibacterial action over a long period.
- **Etak** (イータック) is a patented ingredient developed by Professor Hiroki Nikawa of the Graduate School of Biomedical and Health Sciences, Hiroshima University. (Patent number 4830075)
- One bottle contains enough for approximately 230 pushes.
- * Not effective against all viruses and bacteria.
- * The duration of the effect may vary depending on the condition of use.
- * The effect is limited to the area where the spray lands.
- * This product is not a drug or quasi-drug.
- * As this product does not use a spray gas, there is no need to puncture the bottle when disposing of it.

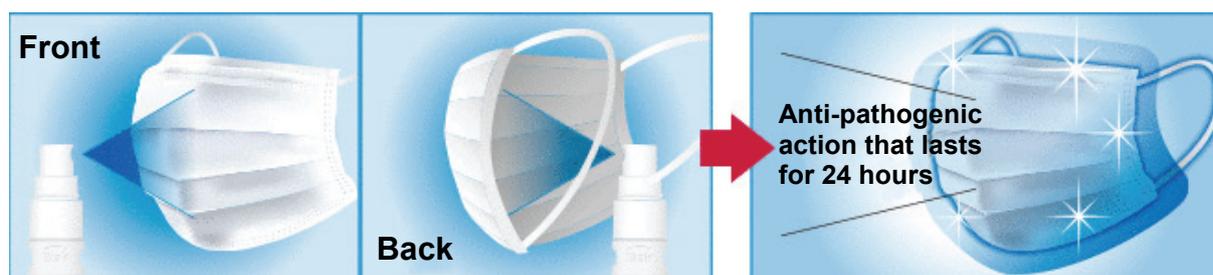

Package	Recommended retail price (tax included)
20 mL	¥1,166

Characteristics

Just by being sprayed onto a mask before you wear it, the long-lasting antibacterial **Etak** (イータック) can prevent viruses or bacteria adhering to the mask for 24 hours.

- * This product is not a drug or quasi-drug.

Usage of Product

Point the nozzle towards the mask and spray a suitable amount (3 to 4 pushes) evenly on the front and back of the mask from a distance of 10 cm.

- When starting to use a new bottle, press the trigger several times before use.
- After spraying a mask, dry it before use, for example by shaking it gently.
- If you are concerned about fading or staining, try using the product on an area that is not noticeable first.
- Do not use this product upside-down.
- Do not spray a mask while you are wearing it.

Keep away from open flames!

Ingredients

Ethanol, ethoxysilane based compound, etc.

Note

- Do not use this product if you have an abnormal skin condition.
- If you experience an abnormal condition such as feeling ill, redness, swelling, itching, or irritation (skin, nose, mouth) while using the product, discontinue use.
- Avoid contact with eyes. In the case that the spray comes into contact with eyes, do not rub your eyes; rinse eyes thoroughly with cold or lukewarm water and consult a physician.
- Do not drink the spray. In the event that the spray enters your mouth, take action such as drinking water and spitting it out, and consult a physician.
- When allowing children to use the product, a guardian must be present to watch and tell them how to use it.
- Follow the instructions on using the mask, and do not wear the same mask multiple times.
- Do not use the product for any purpose other than its intended use.
- Do not use the product near open flames.
- Use the product in a well-ventilated area.
- Take care not to breathe the spray in.
- Do not perform dangerous work such as driving a vehicle or operating machinery while wearing a mask that has not fully dried.
- If the spray attaches to building materials or furniture, wipe it off immediately.

Guidance on Storage

- Always keep the cap on the product when it is not in use.
- Store at room temperature. Store away from direct sunlight.
- Keep out of reach of children.
- Do not transfer to a different container.
- Do not use the product near open flames.
